

Directors Report – Ron Woltman

2021! Yowza...boy oh boy! Another difficult year in the motorsport community here and across North America -- with bright spots certainly -- but brighter light starting to squeeze through on many fronts!

As your Director, and Newsletter Editor, Richard Muise and myself, tried to keep you informed via the letter delivered to your mailbox (and on our website -- which needs to be more active and current); we maintained monthly social Zoom calls, albeit thinly attended, and of course ensuring, with Board colleagues, that the OSCC BoD continued operating whilst not meeting face to face. Hoping 2022 has a different look to it.

During the year, along with OSCC duties, worked at Calabogie Motorsports Park for the GT/PT, Miata and Libre Series -- masked indoors, and distanced outdoors. Thank you to all who contribute to that successful series!

While not part of the club activities, I was fortunate enough to serve as Race Director and Chief Steward for the Super Production Challenge Series -- often the largest entry series at many venues, including CMP.

At year end, I partnered with Ralph Thorhauge (chair), and Peter Cartwright to form your Nominating Committee as we "wrestled and consoled" folks to step up and serve on the Board for 2022.

I believe as we continue to emerge from the cocoon of Covid, 2022 will start to look more and more like motorsport years of years past!

Humbly submitted.

Ronald Woltman

Director
The Ottawa Sports Car Club
